PETITION FOR RULE MAKING

Pursuant to 47 C.F.R. 1.401, Charles Crawford respectfully petitions the FCC to institute a Rule Making proceeding to amend the FM Table of Allotments to add Channel 254A at Mooreland, Oklahoma.

DISCUSSION

Petitioner respectfully submits that the public interest would be served by allocating Channel 254A to Mooreland, Oklahoma as that community's second competing service.¹ Mooreland, Oklahoma is an incorporated community with a population of 1,226 people.² Mooreland has its own mayor, its own post office, fire department, police

¹ Two vacant allotments are currently assigned to Mooreland, Oklahoma, Channel 283C1 and Channel 300C2.

² U.S. Census 2000

department, school district and a number of local churches. Mooreland is a community that is certainly deserving of a second competing service. The proposed channel 254A will provide additional diversity and an outlet for local self-expression to Mooreland residents and therefore is in the public interest.

Attached hereto is a channel study confirming that Channel 254A can be allocated to Mooreland, Oklahoma, consistent with the FCC's FM separation rules. See revision of FM Assignment Policies and Procedures, 90 FCC 2d 88 (1992).

Reference coordinates are:

36 30 30 N
99 20 00 W

Should this petition be granted and Channel 254A be allotted to Mooreland, Oklahoma, Petitioner will apply for Channel 254A at Mooreland and after it is authorized, will promptly construct the new facility.

The factual information provided in this Petition for Rule Making is correct and true to the best of my knowledge.

Respectfully submitted,

Charles Crawford
